

**Box Blade for Tractor
A Project of \$1,500**

Since our camp opened for participants in 1995, we've been extremely lucky to have great relationships with neighboring farmers and equipment owners, who are willing to let us borrow maintenance equipment or other machinery. Over 25 years, we've built new roads, created new campsites, and constructed new buildings thanks to our community.

But as we continue to grow, we find ourselves needing access to certain maintenance equipment more and more frequently. Most needed now is a box blade for our tractor.

Box Blades allow us to do significant road work at a much quicker pace. Especially during wet Minnesota springs, we often need to grade and level our roads, or repair surfaces after flood damages from the local creek.

Supporting this gift also means that you will be responsible for significantly improving our ability to do rapid and important maintenance work on our grounds at camp. In recognition, your name (or organization's logo) will be prominently featured on our camp website (<https://gamehavenbsa.org/camp>) for one year. You or your organization can also choose to be recognized with a plaque or engraved plate on the blade itself, or another location which can be discussed.

We are looking for support via a gift of \$1,500 (the average cost of a box blade), or via the donation of a new or lightly used box blade. While we appreciate and will look at all offered donations, new capital items such as a box blade need to last at least ten years under heavy usage. Therefore, we may have to decline donations of well-used equipment on a case-by-case basis. The safety of our staff and campers is of utmost importance to us here on the Gamehaven Scout Camp team!

Thank you for considering supporting Gamehaven Scout Camp!
