

**Latrine Skylights
A Project of \$200**

It's hard to remember sometimes that there are families that haven't camped yet, who haven't pitched a tent or slept under the stars, cooked over a fire, or hiked in the wilderness on an unpaved trail. But they keep coming to us, and we keep looking for better ways to accommodate them.

We run extensive guest surveys to see what areas at our camp need improvement, and the most often complain we receive is about faulty or failing skylights in our latrine systems. The skylights that are currently installed are well over ten years old, and are showing their age. Most have faded to the point where their translucency is being lost, and many have cracked or buckled after long winters. Leaks form both along the edges, and in seam lines. These leaks lead to a latrine experience that is wet and unpleasant.

Part of our strategic plan is to, over the course of five years, renovate and upgrade our latrines to return them to a point of cleanliness and hygienicness not seen in a long while. Part of this upgrade means replacing the old skylights with new ones.

Supporting this gift means allowing providing a better camping experience to all of our families. It will buy us three skylights to use replacing our most battered latrines. As a thank-you, your name or your company's name will be posted on the Gamehaven Scout Camp website for one year.

Gift:		\$200
	3x Gordon's Replacement Dome Skylight	\$180
	Shipping / Installation parts	\$ 20
