

Grab Bars – Set of 2
A Project of \$200

For many campers, grab bars are a necessity in our latrines. They assist elderly campers, campers with mobility challenges, and provide hanging space for those with needed bags and devices.

As we renovate our latrines in an ongoing 5-year upgrade plan, we need to replace many of the worn-out and damaged grab bars. We need a 36” bar and a 42” bar for each latrine, both made of ADA-compliant stainless steel.

Supporting this gift allows us to keep our camp as a welcoming place for campers of all abilities and ages. It also means your name, or your company’s name, will be featured on the camp website for one year (<https://gamehavenbsa.org/camp>).

Gift:	\$100
36” Grab Bar	\$ 40
42” Grab Bar	\$ 50
Installation materials	\$ 10

If you or your organization are interested in sponsoring three or more sets of bars, we will additionally add your organization logo to our website.
